Annotations:

- 1. Events:** A project of the chapter may have several outreach/education events as part of the single project. For example, the chapter may conduct a 4-part youth wildlife education program over the course of four different weekends. Each weekend would be considered a separate outreach and education event. However, the 4 outreach and education events would only be ONE PROJECT.
2. Using the same example above, there may be several chapter volunteers who assist with these events and thus this project. Let's say 15 people/youth attend this project as those who are being educated and 7 chapter members were the organizers or educators for the educational information imparted through this project. The 15 people who were the audience in this project would only need to be reported/counted ONCE. You will need to report the outreach number FOR THE PROJECT only—NOT for each Master Naturalist Member. When you report by the project in this example you report the true audience number of 15 people NOT 105 people. If you were to report by each Master Naturalist Member then you would be reporting grossly inflated audience numbers. In this example, the seven of you reached a total of 15 people, not each of you reaching 15 people individually because they were all the same people.
3. Report only the actual acreage your chapter's projects had an affect on. For example, your chapter may have conducted a prescribed burn on 100 acres within a 1,000 acre park. Using this example, you would report the 100 acres you actually changed/alterd—NOT the 1,000 acres of the park.
4. Service types for this item may include any outreach and education project, presenting to groups of youth, adults and private landowners and the preparation for those presentations. It may also include leading a trail walk, being a docent, 'manning' booths or displays at an event, the management and administration of your chapter, committees, and other aspects of the TMN program. This type of service may also include the time spent planning and preparing for a the approved project or activity.
